FiberCement
Siding Collection

CertainTeed 

Quality made certain. Satisfaction guaranteed.™

CertainTeed brings fiber cement siding that you can choose with confidence, install with pride and experience in comfort.

We create beauty, harmony and innovation in your world with the rich colors and stunning textures of CertainTeed FiberCement siding.

Our FiberCement relies on environmentally sustainable principles to design technologically advanced, earth friendly siding that looks as good as it performs.

Each and every sheet and board is engineered for decades of superior protection, wear and durability, and is backed with a century-long tradition of excellence and customer satisfaction.

When we say CertainTeed, we mean quality made certain, satisfaction guaranteed.

CertainTeed is dedicated to sustainability for a number of reasons.

1 More than **30%** Recycled Content

CertainTeed FiberCement contains more than 30% pre-consumer recycled material which contributes directly to LEED and NAHB project certification in the Materials and Resources and Resource Efficiency categories.

2 Reduces Landfill Waste

By incorporating fly ash into its FiberCement formula, CertainTeed recycles this pre-consumer by-product from electric generation at coal-fired facilities, diverting over 50,000 tons from landfills each year.

3 Forest Conservation

Most of CertainTeed's wood fiber comes from sustainably-managed forests.

4 Raw Materials Close to Home

CertainTeed sources as many of our raw materials as possible from within 500 miles of our plants, reducing the impact of transportation and related greenhouse gases.

5 Water Conservation

CertainTeed's manufacturing facilities recycle the water used in our plants, saving more than 1.5 billion gallons per year.

CertainTeed WeatherBoards™
